

LUAS Meeting Minutes

April 11, 2007

President Michael Williams called the meeting to order at 7:07 P.M. Fifteen people were in attendance. She began by announcing the lifetime membership certificate for Gene Schafner was available for signing, and invited all present to do so. Doris Howard then announced the speaker for the evening, Kay Clarke, one of the regional stewards from Williamson County. Kay described a two year long project on the 800-acre Indian Mound Ranch, which has five State Archeological Landmarks and one site that has produced over 2,000 projectile points. The Williamson County folks are working on an interpretive center for Cedar Park regarding the Wilson-Leonard Site, and have another upcoming large ranch survey. They've been doing some historic work at Joppa as well. Volunteers are welcomed.

At 8:05 the meeting was re-convened. The President had nothing to report. Tina handed out the treasurer's report. Chuck announced the April field trip to the Mortar Hole Site. Doris announced the speaker for next month (Brett Cruse and the Red River Wars). Pat announced that he needed someone to cover for the open house on April 27 as he would be attending the SAAs in Austin. Dennis graciously agreed.

Doris and Tina created an ad hoc membership committee that will contact members to remind them of LUAS activities.

The meeting was then adjourned.
